

HOBKOTE™

“THE HIGH PERFORMANCE COATING FOR
CYCLONE ROD AND ACCESSORIES.”

33% longer corrosion resistance than Zinc Plate

As Australia's leading supplier of precision threaded rod, Hobson Engineering has remained strident in its commitment to supplying the highest quality product to the fastener market. Hobson have developed the new HOBKOTE™ coating for our cyclone rod and accessories range.

HOBKOTE™ is a specially formulated coating for the Queensland fastener market. We recommend HOBKOTE™ for your next building project to supply a high performance product and save \$.

Products available in HOBKOTE™ (M10,M12,M16)

Threaded
Rod

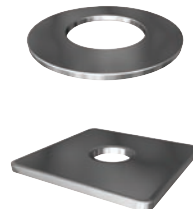

Hexagon
Couplers

Hexagon
Nuts

Washers
Round & Square

L- Bolts
(Foundation Bolts)

HOBKOTE™ is an approved and widely accepted coating in the Queensland market. The current range provides a system for fixing and securing the bottom and top plate to the slab or foundation of a building.

All product has a distinct “dark green” almost black colour.
All threaded rod is wrapped in green poly wrap.
All accessories are in a Hobson green on white carton.
